USES & BENEFITS

- Cloves are said to help fight tooth plague. Some research shows that using toothpaste or mouth wash which contains clove is beneficial for your teeth.
- Cloves may also help reduce excessive sweating. Research states that applying clove oil to the palms for around 2 weeks may help reduce excessive sweating of the palms.
- Clove oil is also said to be a Mosquito repellent. Applying clove oil or clove oil gel directly to the skin is said to repel mosquitos for up to 5 hours.
- Applying a solution containing clove oil gel on the skin may also help with severe itching.
