USES & BENEFITS

- Curry leaves are rich in plant compounds like alkaloids, glycosides, and phenolic compounds. These compounds have many health benefits.
 - Curry leaves are also said to be good for your heart. They reduce heart disease risk factors, such as high cholesterol and triglyceride levels.
 - Research in animals states that curry leaf extract may protect against neurodegenerative diseases. However, more research needs to be done.
 - Curry leaves are said to offer antibacterial, antidiabetic, pain-relieving, and anti-inflammatory effects. But more research is required in this field.
