

HYDRANGEA

INDIAN ANTHURIUM EXPORTERS

- The name 'Hydrangea' comes from the Greek words hydros, which means water, and angos, which means jar. This is because these plants require a lot of water. The Hydrangea exporter in India exports a huge amount of flowers to different countries in the world. The Hydrangea export from India has been rising steadily for a few years now. This may be because of the several benefits and uses of the flower. This is, therefore, a good opportunity for the Indian Hydrangea exporter to expand his business and enter the international marketplace. The Hydrangea export from India includes the export of various varieties and products of the flower.

GLOBAL MARKET DEMAND

- Hydrangea is widely cultivated in the Himalayan regions and the North-eastern states of India. Due to various health and medicinal benefits of the flowers, the Hydrangea import from India has been rising over the years. The Hydrangea exporter in India is known for the premium quality flowers exported abroad. Along with the best quality flowers, exporters in India also export various types of Hydrangeas to almost every part of the world.
