

SAFFLOWER

INDIAN SAFFLOWER EXPORTERS

- Safflower is a multipurpose crop. It is said to be one of the most ancient of the cultivated oilseeds. The Safflower exporter in India exports tonnes of Safflower each year. This growing demand in the Safflower export from India may be due to the various uses and benefits of the crop. This is, therefore, a good opportunity for the Indian Safflower exporter to expand his business and enter the international market. The Safflower export includes the export of various varieties and qualities of Safflower to different countries.
